

## Rigoni/Schoenherz „Victor“

**Release:** 29.04.2011  
**CD Cat. No.:** MIG 00422  
**Format:** 1CD Digi  
**Genre:** Prog-Rock

Before Richard Schönherz became famous as creator of the "Rilke" - and "Hesse" projects, in 1975 he created - along with Manuel Rigoni - the concept work "Victor".

"Victor" is still considered a milestone of prog-rock, a concept album that creates the balance between orchestrated classic and sophisticated rock in a unique way.

With the Royal Philharmonic Orchestra, the Vienna Academy Chamber Choir, musicians such as the recently deceased Kurt Hauenstein (Supermax), Harry Stojka, Achim Buchstab or Johan Daansers, "Victor" became a cinematic masterpiece about the power of youth and a plea for deference to authority, war and cruelty.
