Richard Wahnfried is the "alter ego" of Klaus Schulze. A project that Schulze gave life to work with other musicians. And so this album "Miditation", originally released in 1986, is truly impressive: Guest on this album is Steve Jollife, who worked with such diverse bands like the Hard Rock-legend Steamhammer or electronic pioneers Tangerine Dream. On "Miditation" Steve Jollife can be heard as a flutist. Klaus Schulze: "I have always enjoyed working with people who can improvise well –and with Steve Jollife it was a perfect, smooth cooperation" After "Miditation" was out of print for years, it is now available again, fully digitally remastered and available with new artwork.
